Student Assistant Sought for Teaching Job

October 22, 2020

Description. We are currently looking for a student assistant to support our lecture "Probabilistic Programming". This is a master's lecture, but can also be brought forward to the bachelor's as usual. It is not necessary that you have already taken the course yourself to become a Hiwi. In this case there is of course the option of taking the exam yourself at the end. Your main task would be to **correct exercise sheets.** It goes without saying that the activity will be remunerated at the regular hourly rate according to the effort (**approximately 10 hours a week**).

Course website from 2018:

> https://moves.rwth-aachen.de/teaching/ws-1819/probabilistic-programming/

Requirements. In order to be qualified, you should have the following requirements:

- Interest in theoretical computer science, especially semantics, logic, programming languages, and computability theory

- Interest in math, especially probability theory

- Ideally, you have already completed subjects in the theoretical elective area

- Knowledge of English (the lecture / exercise is in English)

If you are interested in the position or have any further questions, do not hesitate to contact Bahare Salmani (salmani@cs.rwth-aachen.de). Please provide your CV and transcript of records for the application.
